

LLM-Crash Detector – Hallucination Guard

Ek aisa RAG system jo jhooth nahi bolta. Agar jawab PDF me nahi hai toh seedha bolta hai: "Iska jawab PDF me nahi hai"

Day 1 – Final Working Demo

Problem: Normal LLMs PDF me se jawab dete time apne man se jhoothi information jod dete hain (Hallucination).

Solution: Is project me 7 Strict Rules + System Prompt Guard lagaya hai.

Features

- ✓ PDF Upload (Resume / Any Document)
- ✓ Sirf PDF se jawab – No Outside Knowledge
- ✓ Hallucination Guard – Agar info nahi hai toh mana karta hai
- ✓ Groq `openai/gpt-oss-20b` Model – Fast & Stable

How Hallucination Guard Works?

System Prompt:

```
1 You are a strict hallucination guard. Never provide information that
```

- 7 Rules in User Prompt jisme likha hai ki agar ek bhi part PDF me nahi hai toh "Iska jawab PDF me nahi hai" bolo.

Test Cases (Interview me yahi dikhana hai)

Type 1 - Jo PDF me HAI:

- is candidate ka email kya hai? -> Sahi jawab dega

Type 2 - Jo PDF me NAHI HAI (Hero Feature):

- kya is candidate ko React aata hai?
- kya is candidate ka blood group B+ hai?
- kya is candidate ne Google me kaam kiya hai?

-> Output: Iska jawab PDF me nahi hai

Tech Stack

- Python, Streamlit, PyPDF
- Groq API (openai/gpt-oss-20b)
- python-dotenv

Run Locally

bash

```
1 pip install -r requirements.txt
1 # .env file banao
1 GROQ_API_KEY=gsk_....
1 python -m streamlit run app.py
```

Live Demo

Streamlit Cloud pe deploy karne ke baad yahan link aayega.
